# VISIONS TEEN

ONE and Visions share the same passion for fun, creativity, advocacy, and truth when treating adolescents and their families.

Visions prides itself on LGBTQIAP affirmative practice and is excited to work alongside ONE Recovery in making diversity and tolerance a global recovery concept.

ONE carries the simple belief that there is one recovery from all struggles and it resides in the connection of humans.

# We are all one.

Connection is the key. At Newport Academy, our philosophy is unconditional love. Call us today to find out more about our holistic approach to teen treatment.

"We have seen an increase in the need for education and services around the mental health needs of LGBTQ youth. At Newport Academy, we stand behind ONE's efforts to help fill a void in services for teens."

-JAMISON MONROE JR., FOUNDER & CEO

The only requirement is a desire to be inspired.

We believe that lasting healing and growth happens best in the context of a trusting relationship with another person.

## Healthy Device Management Track

(Device / Internet / Video Gaming / Social Media / Online Platform Dependency)

Resolutions Teen Center is the only fully comprehensive intensive outpatient program in the country which offers a specialized program track specifically designed to treat Internet, video/online gaming, device, digital over-engagement, and other technologically-driven dependencies.

Created by Dr. Don Grant, (Chair of the American Psychological Association "Device Management Committee" and a globally-recognized expert in "Healthy Device Management" and the "Practice of Good Digital Citizenship"), this RTC-unique track was especially designed through evidence-based research and practicum, to help our teens break their often unhealthy attachment and dependence to devices. Reintroducing to our teens (or for some, maybe even demonstrating for the first time) the value and importance of face-to-face relationships, activities, family, nondigitally-based interests, and a healthy social community "IRL" ("In Real Life") is a core goal.

Once "unplugged," we provide them with individualized strategies and tools for appropriate and healthier re-engagement and sustainability post-treatment.

Thank you, Lynne Pedersen, for all you've done, all you do, all you are, and allowing us the privilege of joining the party and poporting it!

Don, Reza, and Maryam

# THE ART OF PARENTING workshop series

Marcela and Rebekah are the creators of The Art of Parenting workshop series. This series supports adolescent treatment settings in reaching and teaching parents. We know that successful recovery treats everyone in family life, most importantly, parents. The Art of Parenting educates parents on the teen brain, effective relationship tools, self-care, and how to create a loving atmosphere at home. We would love to bring our workshop to your program.
